Thermoforming packaging system

GEA PowerPak PLUS

GEA PowerPak PLUS is the latest thermoforming packaging system from GEA featuring full visibility at the sealing station during production, automatic top and bottom film alignment for perfect sealing and change-over and set-up times that take just minutes. PowerPak PLUS is designed around efficiency, promoting excellent package quality, reduced film consumption, fast and simple handling, more uptime and low total cost of ownership. GEA PowerPak PLUS embraces an abundance of packaging types. A single machine for air, vacuum, MAP, steam, skin, topforming and shrink packaging with various easy opening and reclosability features. The main variety of food products include meat, processed meat, poultry, fish & seafood, dairy, bakery, convenience foods, fruits & vegetables. The GEA PowerPak PLUS can also pack medical and technical goods.
